THERAPION MAY NOW ALSO BE OBTAINED

DRAGEE (TASTELESS) FORM.

THE NEW FRENCH REMEDY

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Rostan, Johert, Velpeau and others, combines all the des'derata to be sought in a medicine of the kind, and surpasses every-

ably short time, often a few days only, removes all discharges, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, firstation of the lower bowel, cough; broughtly, authora, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION NO. 2 putity of blood, scurry, pimples, spots, blotches, pains and swel-

ling of joints, secondary symptoms, gout, sheumation, and all diseases for which it has been too much a fashion

to employ mercury, sarsaparilla, &c., to the destruction of sufferors' tooth and ruin of health. This preparation purifies the whole system through the blood, and the roughly climinates all poisonous matter from the body.

THERAPION NO. 3 for extion, sleeplessness, and all distressing consequences of

dissipation, worry, overwork, early error, excess, he fit possesses surprising power in sestoring strength and vigour to those suffering from enervating influences of long residence in bot, unbealthy climates.

A Fre ch ecientist has devil red a mest ingenious method which has greatly increased the sc. parfibe circmato_raph by considerably Lugmenting the speed-that is, the sumber o pictures teken within a recond-to almost incredible figures. Whe cas the orlinary apparatus tike from thirty o fifty in tantaceous pictures, during a second, the new method enables as many as two thousand views to be taken diring this short faterval. It is thus possible to decompose the mist fugitive phenomena, such as the mition of insects' wings, as fir as can be desired; and by reject jeg the component pictures on a screen in more or less rapid succession to it dy their mechanism By levest gating the fight of insects it is hoped to airlys at a fine understanding of many problems met with n

Each spatk will produce a photographic p'clute on the portion of the film which harpens to be in Front of the of hetive.

In o der to abtain on the film a teries of images of an object situated in front of the optical system, the objective should be kept open during the time of one rotation of the rod. The rell used by the inventor is about one foot in diameter, and, accordingly, it can receive a film about three feet in length, contrining filly four photographs of the same size as ordirary cinematogre p'a pictures.

DEL'CATE MECHANISM. As the rotal ne roll is enclose in an octagonil bex, t e appara'us can be operated in full daylig to The objective is contained in a smill weden compartment or painter at the front of the b.x, which contains a mirror [30] race log the image of the object on the l

The proper speed of retation is best ascer tained by gauging the cound given out by the sparls. This is of remarkable purity, and is similar to that of a violing During a single rotation of the roll, the apparatus is provided with an electrically operated shutter, which is opened at the proper moment, and closed automatically ugain after the rol

has performed a complete revolution. This stuter consists of a brass plate with two rect angular windows of the same dimensions and distances as cinema ograph pictures. These two windows are closed previously to the ex periment by a small shutter of very thin sheet steel, which is disergaged at the preper moment by a special electro-magnet so as to open the two windows

That'me is registered by means of an electromagnet recorder controlled by a tuning fork of fifty vibrations per second, the ends of which are photographed along with the pictures.

OF THE MULTITUDES who have used it, or are now using it, we have never heard of any one who have been disappointed in it. No claims are made for it except those which are amply justified by experience. In commending it to the afflicted we simply point to its record. It has done grent things, and it is certain to continue the excellent work. There is -we may honestly affirm -no medicine which can be used with greater and more reasonable faith and confidence. nourishes and keeps up the strength during those periods when the appetite fails and food cannot be digested. To guard against imitalions and substitutions, our "trade mark" is put on every bottle of "Wampole's Propara tion," and without it none is genuine. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver, Oil extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it creates ar appetite, aids digestion, renews vital powers drives out disease germs, makes the blood rich

red and full of constructive elements, and gives back to the pleasures and labours of the worldmany who had abandoned hope. Dr. S. H. McCoy, of Canada, says: "I testify with pleasure to its unlimited usefulness as a tissu? builder." Its curative powers can always be relied upon. It makes a new era in medicine is beneficial from the first dose and represents effective medical treatment of the twentieth century. "You can trust it as the Ivy does the Oak." One bottle convinces. THE QUEUK-CUITING CAMPAIGN.

In many quarters, there still prevails a good deal of scepticism with regard to the reality of the Reform movement in China, or rather one should say amongst the Chinese nation, for they are a widely scattered birthday. people like the ancient Jews or the more modern Britons, founding communal bodies in whichever country their adventuresomeness may lead them. But if one thing more than another goes to prove the change of sentiment that is tending to alter the des tinies of China by demolishing the barriers which stood between her and the progressiveness of the world in general, it is the three men has hard labour and fiur hours movement that can best be described as stocks for the larceny of clothing from a house "the queue-cutting campaign." There is no In Kowloon City. dubiety about the enthusiasm with which this campaign is being followed up. It is an indisputable fact that there is no people more adaptable than are the Chinese to the manners and customs and life of the foreign countries to which they are constantly finding their way. As a rule the Chinese are ruled by the precept, "When in Rome do as the Romans do." And no doubt it is this very | season. adaptability that has led countless thousands of them settled in the United States, Mexico, Southern America, Austra'asia and the Federated Mal y States to discard the queue. If we'remember aright, it was Dr. Seisions were also issued to-day. Arthur Smith, in his "Chinese Characteristics," who declared pithily that the people of China never could advance until they practice of shaving the head. It is rather | S. Sergt. Glddy will act as refe ee. a trite remark, containing far more than meets the eye. It is striking because it shows that such a keen observer as Dr. Smith if the Reform movement is to progress at all The late Chinese Minister to Washington not long ago forwarded to the Throne an earnest appeal from his countrymen in the Americas praying that an Imperial Decree be issued to authorise the cutting of the queue by Chinese subjects resident in foreign | The photos, can be obtained at Mee Cheung's. | news concerning the fary-three. lands. So far no such Decree has been promulgated, yet the receipt of such a pet tion surely must have some effect upon the most callous and case hardened reactionary Reform has penetrated juto the very heart of the Empire itself; and as the many young! fishermen off the Loochoos in November last.

patricians return from their studies abroad they are bound to carry with them new ideas and new views absorbed during their journeyings in countries overseas. So far, we have not learned of any high Imperial official daring to bring down upon himself the Celestial wrath by cutting off his queue in defiance of the displeasure, and probably distrace, that would follow upon any such action, but it is no secret that the Reform Party numbers amongst its ranks several high diguitaries who stand very near the Throne and the forward march of the Reform Party will surely bring an extension of the queuecutting campaign. The custom is not yet much in vogue in the interior of China; Infact, it is held in so much disregard in the way-back provinces of Shansi and Shensi that the white missionaries deem it not only advisable but essential to personal safety to wear a queue, either natural or artificial. Put all along the coast and in other countries where the Chinese come immediately within the sphere of foreign influences, it has taken a firm holdand is widen. ing in scope from day to day. In Hongkong, we have abundant evidences of this fact. Here the movement has taken concrete shape in the formation of the \$ze-Yip Queueless Society, which already has a vast membership roll and is constantly gaining recruits to its ranks. Under its auspices, no less than three thousand five hundred and forty-two members have become queueless. No later than Sunday last we had the remarkable spectacle of a procession of queueless men-who had just had their queues cut off, marching quietly through the principal streets west of the Central Market in vindication of their righ to wear their hair as they like. As a resul of the enthusiasm aroused on that occasion, it is estimated that no less than eight-hundred members discarded their queues. was a silent, sedate, orderly procession, with out accompaniment of trumpet, gong or trumpet; and as such it was highly impressive. It was emblematic of the spirit of Reform that has at last awoke in this great Empire of the East. As we mentioned the other day, there are to be similar doings in Manila on the 25th inst., so that the ball seems to have been set a rolling right merrily. By the way, rather an amus-

Last night, ti e memory of St. Ardraw, Scotland's patron S int, was once mira honouruppar, lloted anywhere in the East which has come to be kn wins St. Andrew's Ball Last night, whether in the temperate climes of the West or the tould almo phere of the Evil pariotic Scots-it died, it is not easy to find a Soutch nan who i not-f rightbered to honour the memory of their great Saint by festing and merrymaling, not unmingled with due stlemnity lesting the occasion. The phenomenal gathering which was present had the fullest orp runities of fliding out for themselves what exceller tho is the average Scotim in maker and that when he undertakes to do a thing to matter what that may be, he leaves n thing midway but carries it cut with a thoroughness and skill which cannot bu, fail to excits the keenest admiration and covy. The 19 o Bal'did sot n'apy way fall short of the traditions of the part and in every way was a bill a t suicess. The decoration, which at once bespike a tremead us import of energy c mbined with skil, were carried out on the samed wish scale is has charact rized them in furmer years, the whole scheme of embilishmonts: being: simple but effective and it was a plea use to netice that the Deco affor Comeri 'es witely avaided the sot uncommen mistake of over-decoration, which tends to spoil the whole effect. Lorg before the hour fixed for the commencement , of the first drace, a steady stream of invited gaests poured into the City Hall. His Excelloacy the Gove nor Sir Frederick Lugard and Lady Lugerl a's servived at an early hour and after being met by Caief Mu ray Stewart and the General Committee, the gubern tor al party was piped into St. Andrew's Hall by Pipe-Majer Barnside, of the Germiston Highlanders, stationed in South Afri a. The presecon of this stalwart son of Septia glad lened the hear's of loyal Toots who were fea ful les the music should be supplied by a dusky vetaof the mag'e pibroch. Suffice it to say that the gentleman's faulti-se ex cution on Bootla d' national instrument was all that could be desired and elicited many an inspired "Hocch!" The muile was supplied by the Band of The Buffi and was ploy d with a degree of skill which was fully app sciated by lovers of the "I ght, fautistic." As in former years, 'Authtermichthy' was patronised with much energy, where those who participated in the active enjoyments of the overing slaked their thirst with the best of hivinges. With considerable foresight, the Committee made due provision to facilitate the work of finding partners by furnishing a number of tresting places. THE DECORATIONS.
